Q4 2016 executive summary

**ABOUT THE REVIEW** / Akamai, the world's leading Content Delivery Network (**CDN**) provider, uses its globally distributed Intelligent Platform™ to process trillions of requests each day. This allows us to gather massive amounts of data on metrics related to broadband connectivity, cloud security, and media delivery. The *State of the Internet* was built to leverage that data better enabling businesses and governments to make intelligent, strategic decisions. Each quarter, Akamai uses this data to publish reports in the *State of the Internet* focused on broadband connectivity and cloud security.

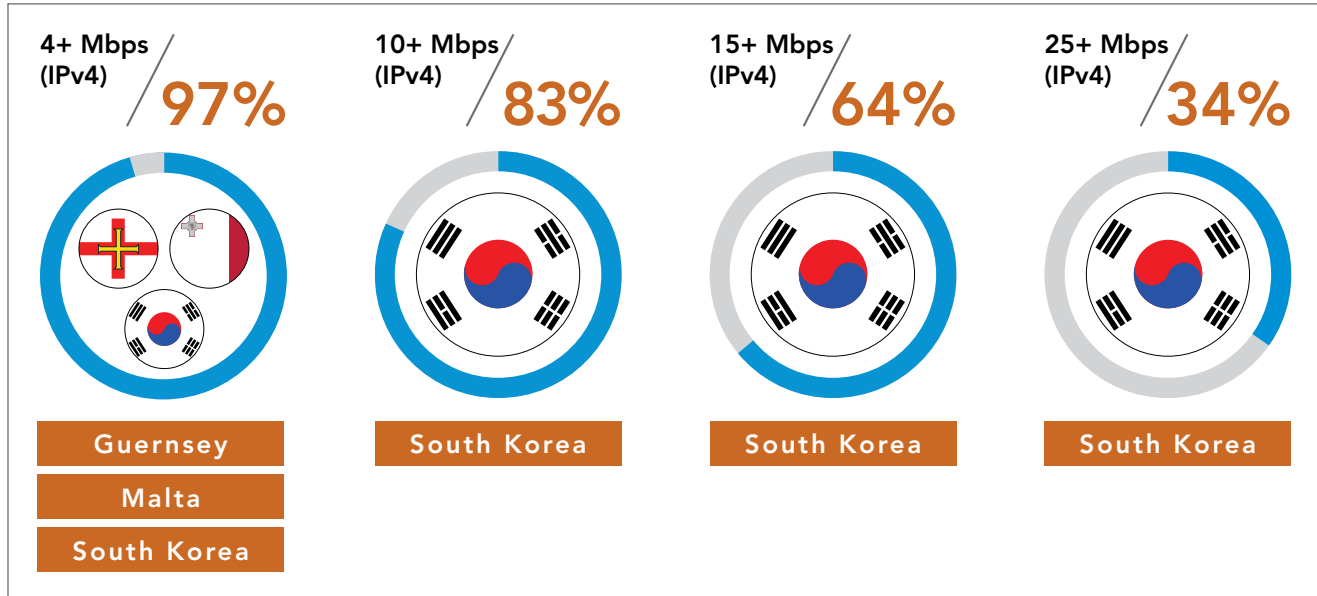

**INTERNET AND BROADBAND ADOPTION** / *The State of the Internet / Connectivity Report* is in its 10<sup>th</sup> year of publication. In it, Akamai reports extensively on Internet connection speeds, network connectivity/availability issues, and IPv6 adoption progress.
